**Description:** The Cozzetta swallow-hole is located at East of Caselle in Pittary Municipality. The entrance is a big fract that you can reach by a signed touristic road, a staircase, descending along the valley. The total cave length is 370 m and the vertical drop is 90 m. The initial part of the cave begins on many little vertical jumps (9m, 2m, 10 m and 9 m) and the continues in a tunnel (with some small lakes) and after another well (10 m) and a slope, you reach wide rooms and galleries with a lot of muddy and calcite flows. At the end, after a few meters jump there is the junction to the Orsivacca Swallow-hole.
